Excellence Technology   2023

ABOUT ME

Front-End Developer with around 3 years of experience developing responsive web applications on Wordpress, JavaScript, and other frameworks like Bootstrap and Tailwind CSS. Team oriented individual focused on enhancing performance, improving user experience, and completing projects on schedule. Use of technology to build impactful web experiences drives my passion.

EXPERIENCE

Web Developer
WebGarh Solutions, Punjab   **Mar 2025 - Dec 2025**

- Customized and developed e-commerce storefronts using Shopify, including Liquid templating, theme customization, and app integration.
- Applied best practices in version control using Git and participated in regular code reviews.

Web Developer
Webshark Web Services, Bengaluru   **May 2024 - Mar 2025**

- Lead the design and development of responsive websites and applications using HTML/CSS, WordPress, Bootstrap/Tailwind CSS, and JavaScript.
- Improved website performance, minimizing website load time by 30% resulting in a 20% increase in user engagement.

Front-End Developer
Rackron Technology Private Limited, Mohali   **Jan 2023 - May 2024**

- Supervised the development and management of web projects with HTML, CSS, JavaScript, Bootstrap, WordPress, and Figma.
- Ensured successful completion of projects single handedly and as part of a team, always to the delight of the clients.

PROJECTS

1. TAXPERT4YOU- TAX SOLUTION PLATFORM

Designed and developed the customer portal UI and Admin Panel for a tax solution platform. Using Figma, I created mockups and built responsive webpages using HTML, CSS, Bootstrap, and Javascript. Google Authentication was implemented with Firebase to provide users with secure login and easy access.

Technology Used

HTML, CSS, Bootstrap, JavaScript, Firebase, Figma

2. VIDYAVIKAS - COLLEGE WEBSITE

Builgta dynamic college's website on WordPress with a built in careers/job portal for student employment opportunities. Reduced average student response time by 50% by building a live AI chat feature and improved student satisfaction. Used Figma for designing and ensured that UX was simple and responsive for all devices.

Technology Used

WordPress, Figma, SEO
